

EurOffice Services - EOS

Opening International Markets for Small Innovative Firms

- ◆ Looking for a competitive advantage?
- ◆ Trying to enter or develop international markets?
- ◆ Need to be located in a high tech environment?
- ◆ Don't know how to make the first step?

Start Cube offers access to the EurOffice Network, the international network of Business Incubators, Business & Innovation Centres and Science Parks, which provides pragmatic business services that facilitate access to global markets.

The EurOffice Services initiative promotes dynamic networking opportunities between companies located in different regions of the Network. Innovative start-ups and small companies can select from the range of EurOffice services those which will best suit their needs. Services are provided both in Finland and abroad.

Start Cube Contact Person helps companies to select the right EurOffice-services in accordance with their needs. Technopolis Ventures' wide experience in providing services for incoming firms, including soft landing and business development services, networking, mentoring and access to financing services, guarantees our professionalism in services related to the EurOffice Network.

The offered EurOffice Services by Start Cube, Padova, Italy:
